TAGGING INFORMATION:

Consignors may either tag items to sell with handwritten tags or by printing your personalized tag documents containing barcodes on your personal color printer (color needed if printing full price tags due to highlight color). We will provide the tag documents for you to print.

Handwritten Tag Information

1. Use 1/2 of a 3X5 index card per item. Do NOT use regular paper. It will tear off. Use unruled white index cards. You may use a tagging gun, please place the tag in the seam under the right armpit. Please do not put on the front of the item since the gun leaves a hole in the item. We have received complaints about this issue.
2. **ALL TAGS MUST HAVE CONSIGNOR #, PRICE, ITEM DESCRIPTION AND SIZE.** Please follow our specific format to avoid confusion at the check outs. An example of a good description is: Girls-Old Navy Purple Coat. Do not write: shirt. If our format is not followed, it may result in lost sales for you. Our checkout volunteers are trained to read as per the manual instructions.
3. Print consignor number - top center of the card. Example: #900
Your consignor number is for life so you may tag throughout the year.
4. Print price- example: \$2.00 or \$2.50. **Price items in .50 increments!**
5. **Between the hours of 1 pm -3 pm on the Public sale day we have our “Half Off” sale. IF you choose NOT to sell your items at the half off price, you need to use a YELLOW highlighter and highlight the price on your tag. IF the price is not highlighted, the item will be sold at the half off price.**
6. Size of the item must be put in bottom left corner of the index card. Example: 5T or 12M
7. Description of item must be put in bottom right corner of index card. Provide a good description so we can match a tag to an item if the tag falls off. Example: Girls Pink tank top-GAP.

#900	#900
\$2.50	\$23.00
5T	
Girls Pink Tank Top GAP	Graco Blue Bear Stroller

 3. Use 8.5 x 11 white index card paper. With this paper, you will print 12 tags on each page.
 - a. Use white paper.

- b. We purchased paper from Amazon.com “Neenah Exact Index Card Stock, 8.5 x 11 Inch, 90 lb, White, 250 Sheets (40311)” for around \$8. (TOTALING 3000 TAGS PER package of paper).
4. Print with high quality and use color if printing full price tags so yellow highlight of the price is printed. A Black-only printer may be used for printing half price tags.
 5. You do not need to print the entire tag document. Print individual pages for the price points that you use.
 6. Be careful when cutting tags apart so that you only cut in the whitespace between the tags. If part of the barcode is cutoff, then it will not scan. The barcode for each tag is printed at the bottom of the tag. See the cut arrows in this diagram for the suggested cut lines. You can use scissors to cut the tags however a paper cutter works better if you have one.

7. Handwrite Size and/or Description information on your printed tag. Do not overwrite the printed information with your handwriting, especially the barcode.
8. When pinning your tag to an item, do not cover price, size, description or barcode.
9. Do not handwrite a different consignor ID, price, or highlight a half off tag since this information is coded into the barcode. It is the barcode information that is recorded in our sales database.
10. If we have not provided a tag for a price point, then hand-write a tag using Handwritten Tag Information in the previous document section. If the price point is commonly used, let us know and we can generate a barcode tag for it.

Tag Placement and Item Presentation

1. **ALL TAGS MUST BE SECURED WITH A SAFETY PIN or a tagging gun. The tag goes on the top right corner for clothing for safety pins and right arm pit for tagging guns..** Do not use stickers or sticky notes or any type of tape on any clothing items. Your tags will fall off. If the item does not have a tag on it, the item will not be sold. Please look on our web site for “frequently asked questions”. There are pictures of how a tag and hangers should be displayed. Items with no price tags will be pulled off the floor and not sold. They will be placed in a rejected pile. Please do not put the safety pins over information printed on your tags.
2. Clothes must be placed on the hanger forming a “ ? “ when looking at the item. Check out our web site for a picture. “Frequently asked questions”.
3. **DO NOT USE ADULT SIZE HANGERS** unless you are hanging size 8 and up clothing.
4. When hanging pants or shorts, please use extra safety pins to make sure they do not fall of the hanger. Make sure the pants are fully displayed. Do not fold pants. Customers will take them off the hanger to see the knees.
5. All shoes must be laced together and secured by safety pins **OR** in a large Ziploc bag. Use a safety pin or packing tape to secure the bag from being open during the sale. Please put your tag **inside** the bag. **DO NOT WRITE ON THE BAG. IT WILL WIPE OFF.**
6. All items that are small such as onesies or socks or tiny TOYS must be in a Ziploc bag. Use a safety pin or packing tape to secure it from being open during the sale. Please put your tag **inside** the bag. **DO NOT WRITE ON THE BAG. IT WILL WIPE OFF.**
7. All toys and games **MUST** work properly and have working batteries in them. Go to the Dollar Store and get cheap batteries. All games or puzzles & etc. must have all of the game pieces included in the box. If the item does not work or is missing pieces, it will be pulled off the sales floor. Please check our “rejected” table. Any items that is sold that does not have all pieces or is not in working conditions will be contacted by the consumer for a FULL refund.
8. When tagging books, movies and toys make sure to secure your tag with clear tape. Place the tag on the back of your movies or books. Place the tag on your toy where ever it fits **and is secure.**
9. If you’re selling large outside equipment, power wash them before the sale **if** it is dirty. A good clean item will sell for a higher price.
10. Remember pricing is very important. Do not over price your items. You have to price them right to sell. Our biggest complaint from our customer’s last sale is that our prices were high. If you price your items too high, you will be taking a lot of your items home.
11. If you plan on returning for your unsold items, please do something special to the top of your hangers such as colorful duct tape, ribbons, zip ties. Be creative. This will make your pick much easier to find your unsold items. Please check the entire facility for your items. Customers pick up and move your items a lot during the sale.
12. Do not put any clothes in plastic bags to sell on tables! All clothes should be on hangers and display in the correct location for gender and size. Any bagged clothing must be put in a Ziploc bag and must be pinned on a hanger. We are limited table space so all clothing must go on the clothing racks. Baby onesies are an exception. They may be placed in Ziploc bags and put in the **BABY SECTION TABLES. ALL CLOTHES THAT ARE PUT ON TABLES THAT ARE IN ZIPLOC BAGS WILL BE PULLED OFF THE SALES FLOOR.** (Except for baby onesies in the baby section tables)
